Dielectric properties up to 30,000 volts

Suspension provides a secure fit from the helmet to the head as well as the balanced weight distribution.

Ratchet adjustment through a soft rotation knob. It adapts to different head sizes, allowing an adequate adjustment for demanding jobs.

Suspension is replaceable and washable with ventilation that helps reduce pressure.

Designed to give great comfort.

Equipped with the exclusive suspension of double straps of nylon, 4 points of support that guarantees a better absorption of impact.

Extra lightweight and ideal size.

Enough space for good ventilation.

PREMIUM INFRACAP
